15		I remarked in the schedules that I first returned that											
16		the frost of June 4. 1859 destroyed the crops of Wheat and											
17		Fruit. The same remark will apply to my entire District											
18		the soil being mostly Limestone. The fertilizer used throughout											
19		the District is Barn-yard manure with an occasional											
20		coating of Lime. The chief timber on the uplands are											
21		White & Hickory. That in the Bottoms, Sugar-tree Walnut											
22		& Swamp Oak - The water as a general thing is Limestone											
23		There was no epidemic prevailed in any part of my District											
24		the past year. It has been unusually healthy as you											
25		will see by referring to my "Schedule of Mortality"											
26									Yours Truly				
27									M. Harvey				
28									Assistant Marshal				
29													
30		I hereby certify the foregoing to be a true copy of the
